## Local Matters.

### Sun and Tide Table.

Sun rises tomorrow at 6:11 a. m. and sets at 6:21 p. m. High water at 6:36 a. m. and 6:59 p. m.

### Weather Probabilities.

For this section cloudy and threatening tonight and Wednesday; probably light rain; fresh northeasterly winds.

### Circuit Court for the County.

[Judge C. E. Nicol presiding.]

In addition to the indictments found against Joseph Thomas alias John Wright, colored, the grand jury in the Circuit Court for the county yesterday also returned true bills against Adam Glenn and Adelaide Glenn for robbery, and John Cisco for assault with intent to murder an infant.

In the case against John Green, charged with assault with intent to kill, the grand jury failed to return an indictment, and the prisoner was discharged. The cases of the Commonwealth against Henry Jones, charged with larceny, and Frank Teyman and Malinda Rogers, charged with perjury, were abandoned, with the consent of the State's attorney.

The case of G. H. Harris, for violating the law requiring a tax on automobiles, was also abandoned, the ordinance having been passed by the town council of Falls Church and the arrest having been made before the State law authorizing the ordinance became effective.

The court approved the application of the Capital Squab Company, of Washington, for articles of incorporation, with a capital stock of \$50,000. The incorporators are Clarence B. Story, president; Charles B. McKee, secretary, and John B. Smallwood, treasurer, and the object of the company is to raise and market squabs, guinea fow, etc.

The wills of Walter W. Burdette and Thomas N. Conroy, both of Washington, were admitted to probate.

The writs of attachment of Dyer and the Birch and Kleps Company against Dougherty were quashed at the instance of James R. Eaton and R. Walton Moore, which lets the creditors of Dougherty in on an equal footing. Dougherty was the proprietor of the dining-room at Luna Park during the past season.

A case which involves the constitutionality of the law for the separation of white and colored persons on steam and electric cars in Virginia was set for hearing on Saturday next. It is understood the complainant, Barbara E. Pope, is backed by an organization of colored people, having for its object a decision of the Supreme Court of the United States. The woman, who claims to be a clerk in the Interstate Commerce Commission, was ejected from a Southern Railway train at Falls Church several weeks ago and was fined \$10 by Mayor Hawthurst, of Falls Church, for violating the railroad law. R. Walton Moore, attorney for the Falls Church and Old Dominion Company, and James R. Eaton, attorney for the Washington, Alexandria and Mount Vernon Railroad Company, have asked the court for permission to be heard.

Among the other cases to come up at this term will be that of Blake vs. the Washington, Alexandria and Mount Vernon Electric Railway Company, a suit to recover \$25,000 damages for alleged personal injuries received in an accident on defendant company's cars. This case will be heard on October 23.

Today's proceedings—Com. vs. Chester Branch, colored, indicted for assault; prisoner pleaded guilty and was sentenced to serve sixty days in jail.

Com. vs. Wooster, indicted for an assault on Carpenter in Del Ray; case in progress.

### C. & O. Train Wrecked.

Westbound Chesapeake and Ohio vestibuled train No. 5, known as the Old Dominion express, from Washington and Norfolk to Cincinnati, which passed through this city about 2:30 o'clock yesterday afternoon, was wrecked three hours and a half later seven miles west of Charlottesville, near Ivy Depot, killing one man and injuring seven others.

The train consisted of ten coaches and drawn by two engines. It left Charlottesville twenty minutes behind schedule time. While going down grade at an estimated speed of more than sixty miles an hour both engines jumped the track, carrying with them the express, mail, and combination cars and two day coaches.

The front engine rolled down a six-foot embankment into a marsh. Firemen Carper either jumped or was thrown through the cab window. A half hour later he was found dead in a small creek with his neck broken.

Engineer Johnson was also thrown from his engine, but when found had crawled back to his place at the throttle. Engineer Jones and Fireman Campbell, of the second engine, was thrown violently to the ground, and it is believed, escaped serious injury.

The express car next to the engine was crushed, one side being entirely "swiped" off by the mail car, and the remainder tossed twenty-five feet into the marsh.

None of the passengers was seriously hurt, but great alarm was created in the dining car, as many passengers were having the evening meal when the crash came. All were thrown from their seats, the chinaware crashing on top of them. Hysteria attacked several of the women, and their screams could be heard above the escaping steam.

A wreck train carrying physicians proceeded to the scene, and the work of clearing the track was prosecuted as rapidly as possible.

### Divorce Suits.

Nonsupport and desertion were charged in the petition for maintenance filed in Washington yesterday by Lottie O. Tasker against Henry C. Tasker.

They were married in Manassas, in April, 1897, and lived together until four months ago, when, it is asserted, Tasker left his wife.

Emil C. Burke yesterday petitioned the District Supreme Court for an absolute divorce from Thomas F. Burke. They were married at Ballston, in February, 1900. She asks that her maiden name—Emil C. Johnson—be restored and that she be awarded alimony.

### Captain Assailed.

Four colored stokers on the steamer Newport News mutinied at Norfolk last night because their demand for an increase in their pay was not immediately granted, and one of them, William Boone, made a desperate effort to assault Capt. Cason, of the steamer. The negroes presented their demand a few minutes before the steamer was due to start for Washington, and they were informed that there was no one at that end of the line authorized to grant their petition.

The negroes became mutinous and the police was summoned, the mutineers in the meanwhile being confined in a warehouse. When a patrol wagon load of policemen arrived the negroes consented to fire the steamer to Washington, provided they would not be arrested, and this was agreed to by the officials of the company at Norfolk. Boone, who attacked Capt. Cason, had, however, in meantime escaped and is now at large.

The Newport News arrived at this port at 8:35 this morning, about two hours late. Captain Cason had no trouble with the firemen after the steamer left Norfolk.

Firemen on the Norfolk steamers receive \$45 a month and board. They are on duty six hours and off the same period.

### The Robbins Shows.

If there are any readers who have not heard of that prince of arctic managers, Frank A. Robbins, all Greater New York has, and sends him forth to tour the country at large with his best wishes for his success and the strongest words of praise for the great incorporated circus, menagerie and hippodrome organized under his name and run under his personal direction, which will exhibit on the fair grounds on Saturday next.

Everybody is already agog to see Alpha and Omega, those mid-air wizards of the bike, in their searome precipitous flight down to another death trap, in the shape of a yawning fifty-foot gap across which they superlatively soar wheel.

Equally extraordinary in its way is the colossal animal act, introducing at the same time in one arena performing elephants, zebras, camels, water buffalo, llamas, dogs, goats, horses, ponies, dromedaries, monkeys, mules, donkeys, bears, sacred cattle and other highly educated wild and domestic beasts. The new heroic and historic pageant, "The Tribunal of Nations," serves to introduce in royal pomp and splendor living counterparts of Napoleon, Frederick the Great, Julius Caesar, and other famous rulers of ancient and modern times.

### W. C. T. U.

The special committee of the W. C. T. U., to care for the Children's Home, will hold a meeting at the home on Wednesday at four o'clock to plan for the winter's work. All persons interested in helping little children are requested to be present at that meeting. There are now nineteen Alexandria children in the home. Phillips Brooks has said: "He who helps a child helps humanity with a distinctness, with an immediateness, which no other help, given to human creatures in any other stage of their life, can possibly give again."

### Death of Mr. Atkinson.

Mr. Griffith Atkinson died yesterday morning at his home, 211 east North avenue, Baltimore, of catarrh of the stomach. Mr. Atkinson was a son of the late Thomas C. Atkinson, of this city, and lived here for a number of years. Later he moved to Baltimore and was connected with the First National Bank of that city for many years. More recently he was employed by the United Railway Company. He is survived by a widow, who was a Miss Irving, of this city. The interment will be in Alexandria tomorrow evening.

### Sales in the County.

Mr. Samuel H. Lunt, auctioneer, yesterday afternoon sold at public sale to Mrs. Emma P. Hume lots 200 and 204 with a three story frame house in St. Elmo, for \$2,150.

Capt. B. F. Knox was to have sold property in Del Ray and other portions of the county yesterday afternoon, but the sales were postponed.

### Union Street.

Members of the committee on streets of the City Council with the City Engineer, Southern Railway officials and a number of merchants who transact business on Union street met on that thoroughfare this morning for the purpose of determining what course should be pursued in order to place the street in proper condition for traffic.

### Police Court.

There were no cases for trial in the Police Court this morning. No strangers appeared for lodging last night, and the usual crowd of would-be spectators of the proceedings of the court were conspicuous by their absence this morning. The warning delivered by Justice Caton yesterday seems to have brought about the desired effect.

### Machinists' Strike.

Orders have been issued by Jas. O'Connell, president of the International Association of Machinists, for a meeting of committees from each of the lodges at Southern Railway points, to be held in Washington tomorrow. The object of this meeting is a settlement of the strike now existing in the machine shops of the Southern Railway.

### Paid for the Engine.

The City Auditor today drew his warrant for \$3,500 in favor of the La France Company, of Seneca Falls, N. Y., in payment for the new fire engine just purchased for the Columbia company. The old Hydraulion engine which was taken in part payment has been shipped to Seneca Falls.
